Summary

AEM Developer with 4+ years of experience specializing in Adobe Experience Manager (AEM), React integration, and building scalable enterprise digital experience platforms. Expertise in AEM 6.5, AEM as a Cloud Service (AEMaaCS), editable templates, custom dialogs, Sling Models, HTL (Sightly), Content Fragments, Experience Fragments, and GraphQL APIs. Proficient in Java, JavaScript, React.js, and developing reusable, component-driven solutions that enhance content authoring and user experience.

Experienced in delivering client-facing solutions for global organizations including Lumen Technologies and British American Tobacco (BAT), working closely with business stakeholders, designers, QA teams, and development teams. Skilled in DXN Framework, Azure DevOps, Adobe XD, Figma, Dispatcher, JCR, CRXDE Lite, Agile methodologies, UAT support, and production deployments. Passionate about building scalable, maintainable, and user-centric digital experiences using modern AEM and web technologies.

Skills

- **AEM Development:** Adobe Experience Manager (AEM) 6.5, AEM 6.6 LTS, AEM as a Cloud Service (AEMaaCS), Editable Templates, Sling Models, HTL (Sightly), Granite UI, Dialogs, Core Components, Component Development, Template Development
- **Headless AEM:** GraphQL APIs, React Integration, Content Fragments, Experience Fragments, Content Services
- **Frontend:** JavaScript, React.js, Angular, TypeScript, HTML5, CSS3, SCSS, jQuery
- **Backend/Tools:** Java, Node.js, Maven, Apache Felix (OSGi), Python, Groovy
- **AEM Tools:** JCR Repository, CRX/CRXDE Lite, Dispatcher, DAM, Workflow Management, Client Libraries (ClientLibs), DXN Framework
- **DevOps & Collaboration:** Azure DevOps, Git, JIRA, Agile, Scrum
- **Design Tools:** Adobe XD, Figma
- **Other:** Client Interaction, Solution Grooming, UAT Support, Production Deployments, Code Reviews, Feature Development, Component Enhancement

Work Experience

Associate — Cognizant Technology Solutions, India
August 2025 – Present
Client: British American Tobacco (BAT) Digital Platforms (glo & Velo)

- Contributed to the development and maintenance of BAT digital platforms including glo and Velo using Adobe Experience Manager (AEM) and the DXN Framework.
- Developed new AEM components and enhanced existing components based on business and marketing requirements.
- Participated in solution grooming sessions, technical discussions, effort estimation, and feature planning activities.
- Collaborated directly with client stakeholders to understand requirements and deliver scalable digital solutions.
- Supported User Acceptance Testing (UAT) deployments and release activities across multiple environments.
- Worked closely with content authors and business teams to deliver reusable and maintainable content management solutions.
- Implemented responsive user interfaces based on Figma designs while adhering to project standards.
- Assisted new team members with project onboarding, environment setup, and development support.
- Managed sprint activities, work items, and release tracking using Azure DevOps.
- Performed defect analysis, debugging, code reviews, production support, and continuous improvements.

- Contributed to the migration of the myglo Italy loyalty and customer rewards program from Fanize to Open Loyalty.
- Consumed the Mesh API layer (built and maintained by a separate team) to connect the AEM front end with the Open Loyalty APIs.
- Implemented GraphQL queries and mutations in AEM to fetch and update loyalty data from Open Loyalty via Mesh.
- Added a configurable option in AEM allowing content authors to choose between Fanize and Open Loyalty as the loyalty provider, enabling a controlled, author-driven transition.

Senior Systems Engineer — Infosys Limited, India
March 2022 – August 2025
Client: Lumen Technologies (Formerly CenturyLink)

- Developed custom AEM components and editable templates using HTL, Sling Models, and Granite UI.
- Developed React components and integrated them into AEM through client libraries.
- Integrated Cludo Search API to provide search functionality across the website.
- Created and maintained reusable Content Fragments and Experience Fragments for efficient content management and content reuse.
- Enhanced existing AEM components with business-specific requirements, validations, and authoring capabilities.
- Developed Sling Models and backend Java classes to support component functionality and business requirements.
- Managed content structures, configurations, and troubleshooting activities using JCR and CRXDE Lite.
- Worked with AEM Dispatcher configurations and caching validation during development and testing activities.
- Automated DAM-related activities and content operations using Groovy scripts.
- Implemented responsive user interfaces based on Adobe XD designs while ensuring consistency with project requirements.
- Participated in defect resolution, production deployments, code reviews, and application support activities.
- Collaborated directly with clients, business stakeholders, QA teams, content authors, designers, and developers in Agile teams using JIRA.

Education

M.Sc. Computer Science — Kannur University
2019 – 2021 — **76%**

B.Sc. Computer Science — University of Calicut
2016 – 2019 — **75%**

Certifications

- Infosys Certified Adobe Experience Manager Frontend Developer
